

Girls Without Limits! is a free after school program that helps develop girls age 9-14 in the areas of math, science, technology, business, and public service.

This program has been in operation out of the **YWCA** of Olympia since 1998.

We meet every **Tuesday** at **Roosevelt Elementary** in the **Music Room** after school until 5:00 pm.

Every club meeting includes a snack, hands-on activities, great group discussions, and lots of fun.

We are so excited to have had such a positive response to Girls Without Limits! at Roosevelt Elementary and we hope to watch it continue to blossom in the 2005-2006 school year.
